Who are we?

Key Financials are Financial Brokers with offices in Cavan and Monaghan. Established in 2005, our company's aim is to provide professional services to meet our customer's financial needs. We take the time to deal with each client personally and use our experience to ensure our clients get the plan most suitable for them. As a Financial Broker we will research products from a number of providers which will ensure that you receive market wide advice from a single contact. The purpose of this privacy notice is to explain how we collect and use personal information for the provision of our products and services and the day to day running of our business

The information we process

To allow us to provide our products and services and to run our business, we collect and process various categories of personal information throughout your relationship with us,

including basic information such as your name and contact details. We may also process certain special categories of information. We will only do so for specific purposes, such as generating the quote most suited to you based on your specific criteria for application to the life companies. These details will only be taken if it is vital to the progression and completion of proposals and will only be used to interact with the life companies on your behalf. We do periodic reviews on all information held on our clients to keep everything relevant and compliant as recommended by the Central Bank of Ireland.

How we obtain the information

We obtain information from you by means of a fact-find. This is done in the initial meeting and is used to generate a Statement of Suitability to enable the broker to liaise with different life companies and the most suited recommendation for you based on your circumstances. The electronic fact-find is a needs analysis tool used by Key Financials and was developed in house. It has 2 separate forms of security by way of encrypted files and a 4-6 digit passcode specific to each iPad which can only be accessed by the broker. Upon completion of a client fact-find it is then sent by way of encrypted email for the protection and safe transmission to the Compliance officer in Key Financials who then goes through each section to ensure all requirements have been properly completed and that the client is getting the most suitable product on the market to suit their needs. Clients who are interested in submitting an application for a pension, saving or investment are also required to do an Attitude to Risk questionnaire to generate a risk rating to establish their attitude to investment risk.
